## **BHRC Integrity - TCO2**

Recently a batch of integrity samples were tested for TCO2 levels. The results in the main show an average of 29mmol/L, with a couple of below average readings and also two that were relatively above average. In view of these results the BHRC will continue to monitor and test for TCO2.

The horse Lifes A Beach who tested above the TCO2 threshold on 7<sup>th</sup> September 2009, and was subject to disqualification from the S4C Welsh Cup, was tested and has received an average reading and is now cleared to race.

The horses tested were:

Annie Howard  
Brywins Shirley  
Camikaze  
Chaps Commander  
Fiery Vixen  
Greentree Fantasy  
Impartial  
Infinitey  
Krakatoa  
Lifes A Beach  
Monkey Harris  
Oddsonbeth  
Panlubber  
Real Deal  
Sammymorrow  
Talavary Activator  
Whispur  
Wexford Beach
