

VICE CHAIRMAN'S VIEWS

To say the last few months have been interesting would be an understatement, they seem to have flown by but I do believe we are starting to move the BHRC in a different direction.

Our new chairman has been tireless in his attempts to meet as many licence holder's as possible and listen to their views.

Our visit to France proved to be informative and after the World Trotting Conference in February we will produce a business plan for the next 5 years.

This year's racing Calendar will include prize money events like we have never seen before in the sport and I would like to thank everyone who has worked to make this happen.

With a healthy stakes programme in place our next plan is to begin work on a low grade (grassroots) series spread across the UK.

Cheers
Jim
