

VICE CHAIRMAN'S VIEWS

I must give huge thanks to all those that have supported myself and Roy in our drive to be voted in as Vice Chairman and Chairman. The backing and encouragement we received whilst travelling to association meetings was unbelievable and totally appreciated.

As those who attended communicated to us, what most people want to see is change. Change in many forms within Harness Racing, but importantly change in the way which decisions and alterations made by the BHRC are shared with licence holders. Many licence holders feel disconnected from the BHRC

which is a perception and opinion which we want to alter and build members confidence in the governance and the body of the sport.

There are of course others issues which we intend to discuss and address, which time will have to lend itself to.

We hope that the support received will continue and that the licence holders will back any changes made and help us to implement them and improve Harness Racing for all its supporters.

Jim McNally
