"It's no surprise that Crown Manhattan has blossomed into such a superior horse because the Cam Fella line is known for its toughness and never-say-die attitude. So many stallions from the Cam Fella line have been able to pass those qualities on to their offspring. From his female side, you get the extreme speed of Laag and the durability of the Abercrombie line. Toss in a full sister to Albatross in Crown Manhattan's pedigree and you can understand why he had every right to do well on the track and has every right to be a successful stallion."

Dean Hoffman - USTA
